Datasheet

Taroko Gorge, Bucket shape / PP01B

Large pendant

Plant dyed pattern

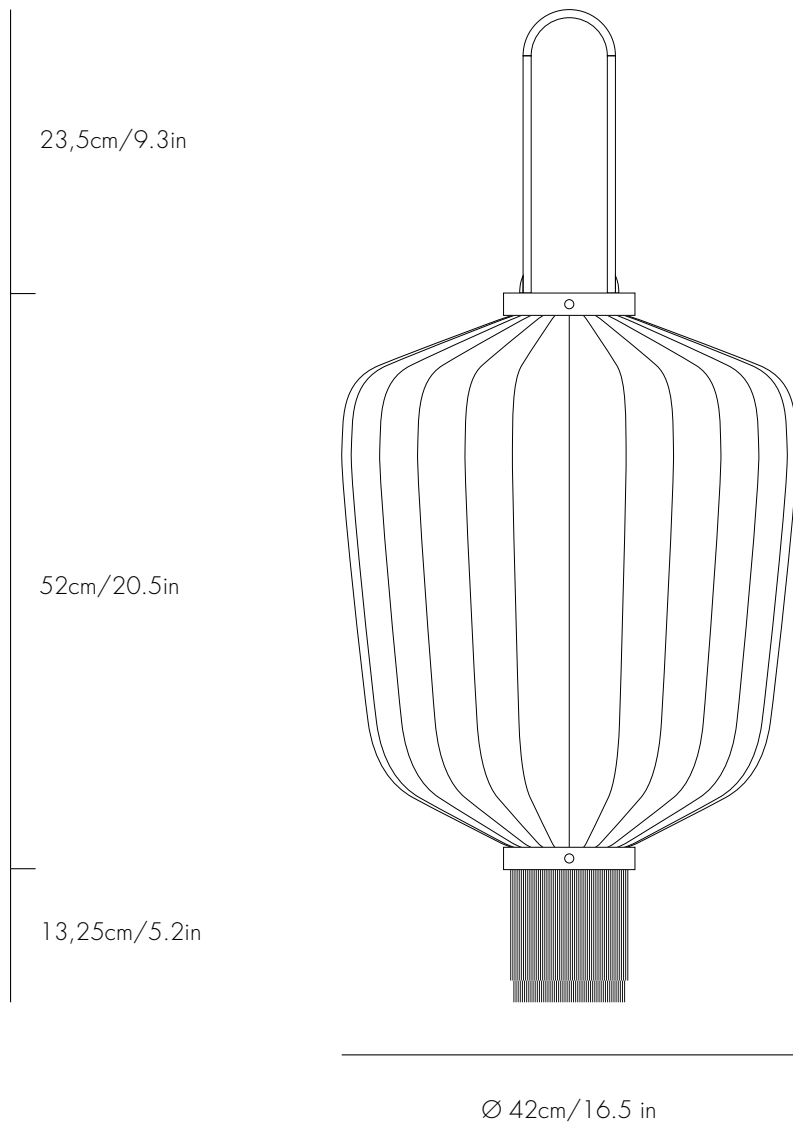

The breathtaking Taroko Gorge with its giant marble boulders inspired the pattern of this lantern. The artisan crumpled and tied the fabric before indigo dyeing. Each handmade pattern is organic and unique.

Bamboo with walnut frames

We believe our bamboo frames give the lantern a heart and soul. Makino bamboo is used for these frames. Grown in the mountainous region of Taiwan, this pliable bamboo is highly durable. Where possible we always use natural and locally sourced materials

Dedication

Six artisans spent 78 hours working on this lantern, which is made from 95% natural materials.
